

## READY TO STREAMLINE YOUR NGL TRADING OPERATIONS?

ENTRADE® empowers you with  
seamless, integrated management.

### ENTRADE®: THE COMPLETE SOLUTION FOR NATURAL GAS LIQUIDS

ENTRADE® is designed to simplify NGL trading and logistics, providing a unified platform that covers every part of the supply chain.

With ENTRADE®, you gain full visibility into your trading, inventory, and risk positions, helping you capture market opportunities, optimize costs, and make fast, data-driven decisions to boost profitability.

### MAXIMIZE TRADE VALUE

ENTRADE® empowers you to capture the full market value of your raw mix by precisely valuing each well's unique proportions. With accurate risk assessments and efficient trade management, ENTRADE® maximizes profitability without extra steps.

### STREAMLINED LOGISTICS MANAGEMENT

ENTRADE® optimizes your logistics by capturing all fees and managing inventories seamlessly, reducing costs and enhancing revenue forecasts. By enabling accurate purity production estimates, ENTRADE® helps you stay competitive and control expenses.

### REAL-TIME REPORTING AND TRANSPARENCY

ENTRADE® enhances decision-making with real-time visibility across the entire value chain, helping you settle transactions quickly and accurately. Gain confidence with timely, transparent insights that empower proactive adjustments and drive financial performance.

# ENTRADE®: INTEGRATED OPERATIONS FROM FRONT TO BACK OFFICE

ENTRADE® provides a comprehensive solution for NGL trading, supporting physical and financial management in both liquid and gaseous forms. With ENTRADE®, automate data integration and reconciliation, reduce errors, and gain an aggregated view of positions, risk, and P&L—helping you make quick, informed decisions that drive profit.
