

## MAXIMIZE EFFICIENCY AND CONTROL WITH ENTRADE®

Your Complete Commodity Management Solution

### ABOUT ENUIT®

ENUIT® empowers global energy and commodities trading companies with enterprise risk management solutions.

Our platform, ENTRADE®, provides complete visibility and control over your business operations, enabling faster, more informed decisions that drive profitability and competitive advantage.

From complex commodity pricing to real-time inventory tracking and advanced risk evaluation, ENTRADE® equips you with the tools needed to thrive in dynamic markets.

### FRONT OFFICE

ENTRADE® streamlines complex trading operations, offering flexibility to handle any deal type without coding. From valuation to invoicing, ENTRADE® automates your workflows, giving you faster results, real-time insights, and more time to focus on strategic growth.

### MIDDLE OFFICE

Track and manage every detail of your physical trading and risk operations with ENTRADE®. Simplify logistics, reduce operational bottlenecks, and gain confidence in every transaction by accessing real-time data on inventory, costs, product quality, and credit exposure.

### BACK OFFICE

ENTRADE® reduces administrative burden by automating critical back-office functions. From generating invoices to calculating taxes across multiple locations, ENTRADE® ensures accuracy, compliance, and seamless integration with your accounting systems.

## LNG, NGLS, AND POWER

ENTRADE® supports diverse commodities with tailored solutions for each market.

Whether you're managing LNG logistics, trading NGLs, or navigating the complexities of power markets, ENTRADE® simplifies processes, reduces risks, and optimizes profitability.

### LNG

ENTRADE® provides end-to-end solutions for LNG trading and logistics, helping businesses optimize every stage of the LNG lifecycle.

From complex pricing and scheduling to real-time position tracking, ENTRADE® ensures your operations are efficient and profitable.

With advanced valuation models and risk management tools, ENTRADE® empowers LNG traders to adapt to market changes quickly, forecast revenues with accuracy, and gain a competitive edge.

### NGLS

ENTRADE® supports NGL marketers and traders with tools to manage inventory, logistics, and bundled credit calculations.

It simplifies every step, from production to sales, enabling accurate cost allocation, streamlined operations, and timely reporting.

ENTRADE®'s features also help forecast purity production and optimize sales revenues, giving businesses the insights needed to make smarter decisions and achieve better outcomes.

### POWER

ENTRADE® tackles the complexities of power trading by providing tools to analyze hourly data, manage load shaping, and evaluate risks effectively.

Its integrated approach simplifies settlements, optimizes pricing models, and offers real-time insights for improved decision-making.

Whether managing financial or physical trades, ENTRADE® ensures that power traders can balance supply and demand seamlessly while mitigating risks across every transaction.

# NATURAL GAS, CRUDE CARGOES, AND REFINED PRODUCTS

ENTRADE® simplifies natural gas, crude, and refined product trading with features designed to meet the unique demands of each commodity.

Our platform delivers visibility, operational control, and accurate risk assessment to keep your business ahead.

## NATURAL GAS

ENTRADE® provides comprehensive support for natural gas trading, from purchasing and scheduling to evaluating risks and costs.

With advanced analytics, real-time reporting, and automation capabilities, ENTRADE® helps businesses streamline operations, reduce costs, and gain better visibility into their positions.

Its flexibility ensures that businesses can adapt to market changes while maintaining efficiency and accuracy in all processes.

## CRUDE CARGOES

ENTRADE® simplifies the complexities of crude trading and logistics by offering tools to track inventory levels, manage market exposure, and allocate costs effectively.

With real-time data integration, ENTRADE® helps businesses make better decisions, improve efficiency, and reduce operational risks, ensuring profitability even in volatile markets.

## REFINED PRODUCTS

ENTRADE® delivers unmatched control for trading refined oil products by streamlining logistics, tracking costs, and ensuring compliance.

With its advanced risk assessment tools, real-time data integration, and seamless reporting capabilities, ENTRADE® reduces inefficiencies and enhances decision-making.

This empowers businesses to optimize operations, improve profitability, and adapt to market demands with confidence.

# METALS, RENEWABLES, AND AGRICULTURE

From metals to renewables to agriculture, ENTRADE® supports a range of commodities with tools that simplify trading, enhance logistics, and improve risk assessment.

Whether managing raw materials, energy credits, or agricultural products, ENTRADE® empowers your business to optimize processes, reduce costs, and maximize profitability.

## METALS

ENTRADE® provides a complete solution for metals trading, managing everything from inventory tracking and pricing to financial hedging.

Its robust platform simplifies operations, improves risk management, and offers real-time insights into trading strategies.

ENTRADE® supports a wide range of metals, including base, ferrous, and precious metals like gold, silver, and platinum, ensuring businesses have the flexibility to optimize their trading lifecycle and maximize profitability.

## RENEWABLES

ENTRADE® empowers renewable energy traders by managing credits, bundled transactions, and compliance seamlessly.

From carbon markets to biofuels, ENTRADE® simplifies the complexities of renewable energy portfolios, delivering tools that improve operational efficiency, enhance visibility, and ensure timely reporting for better business outcomes.

## AGRICULTURE

ENTRADE® helps agricultural traders gain better control over their trading operations by optimizing contracts, streamlining logistics, and tracking costs effectively.

The platform also provides real-time insights into inventory and supply chains, enabling smarter decision-making.

With ENTRADE®, businesses can manage risks, increase efficiency, and achieve better outcomes across diverse agricultural commodities.

## WORLD-CLASS EXPERTISE. INNOVATIVE SOLUTIONS.

Empowering businesses with  
seamless trading tools.

### ABOUT THE ENUIT TEAM

At ENUIT®, our team is dedicated to understanding the unique challenges of every client and delivering tailored solutions that drive success.

With decades of experience in trading and risk management, we combine deep industry expertise with a commitment to innovation, ensuring our clients stay ahead in an ever-changing market.

### CORE FUNCTIONALITIES OF ENTRADE®

ENTRADE® equips you with everything you need to optimize your trading operations:

- Capture and record deals with precision.
- Schedule physical commodity movements seamlessly.
- Monitor inventory levels and costs in real-time.
- Automate settlement and invoicing processes to reduce errors.
- Gain actionable insights with advanced risk reporting and P&L analysis.

### ADVANCED REPORTING CAPABILITIES

ENTRADE® delivers unparalleled insights through its reporting tools:

- Monitor volumetric positions and inventories with ease.
- Access detailed P&L attribution and risk exposure analysis.
- Track storage, transit, and processing costs accurately.
- Analyze market risk with mark-to-market and Value at Risk (VaR) models.
